

BUDDY UP CAMPAIGN

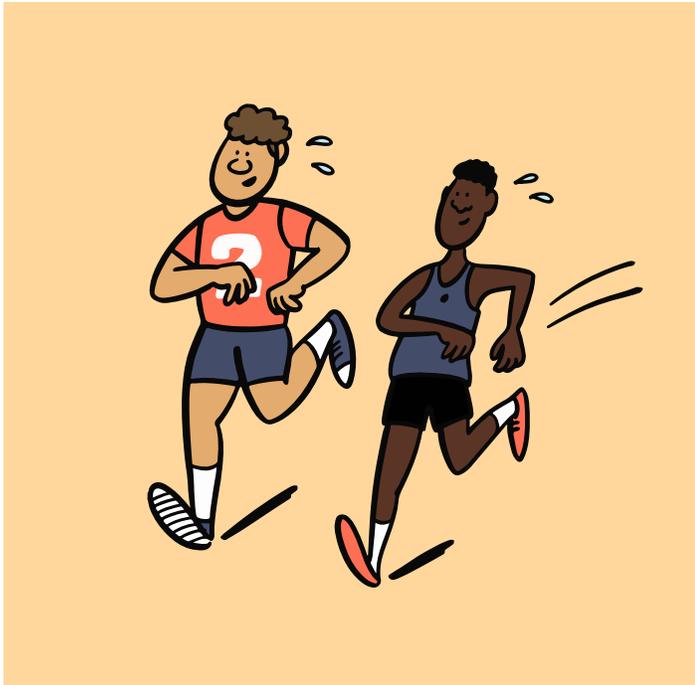

Promote mental wellbeing and drive connection with others by participating in the Buddy Up Campaign year-round. The activities provide great opportunities to check in and ask your buddy, “How are you *really* doing?”

Connecting with buddies, paying attention to how they’re doing, giving them space to share, and supporting them is suicide prevention. We all have a role to play.

QUARTERLY ACTIVITIES

These activities take place during specific times throughout the year.

POWER UP

Strengthen your body and mind

September 26 – October 2, 2022

Buddy Up is about helping buddies but it's important to take care of ourselves, too. Building 'strength' and resilience is key. Building strength within helps work through emotions, relieve stress, and remember to simply enjoy life. Whichever aspect of your health you're choosing to strengthen – physical, mental, emotional, spiritual – take this week to focus on that.

Examples:

- Exercising
- Journaling
- Meditating
- Playing with a pet or kids

BUILD UP

Work on a project

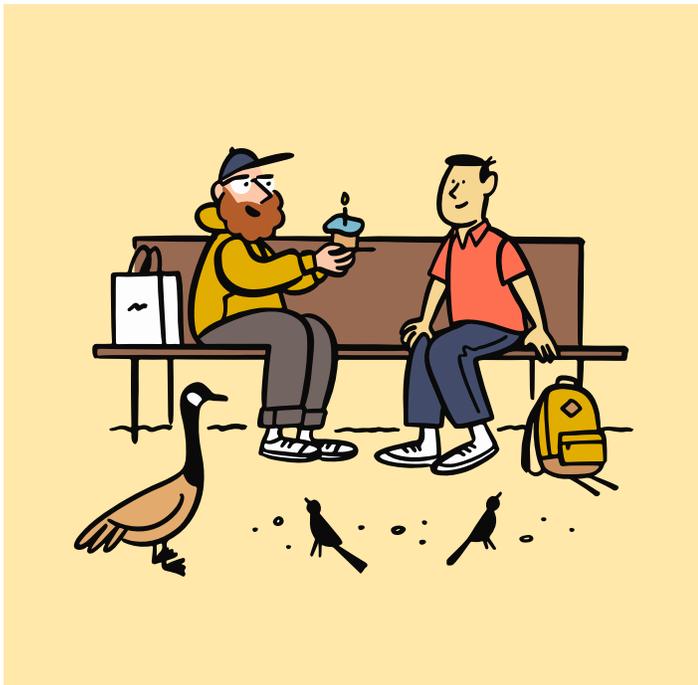

December 5 – 11, 2022

Some of our most authentic conversations and deepest connections happen while we're working with others. This week work on a project with a buddy. While you're working, you might ask how they're really doing, or you might just have a good time working together. Either way, spending time together can deepen connections.

Examples:

- Build a birdhouse
- Go to a pottery class
- Help with a buddy's home improvement project

LIFT UP

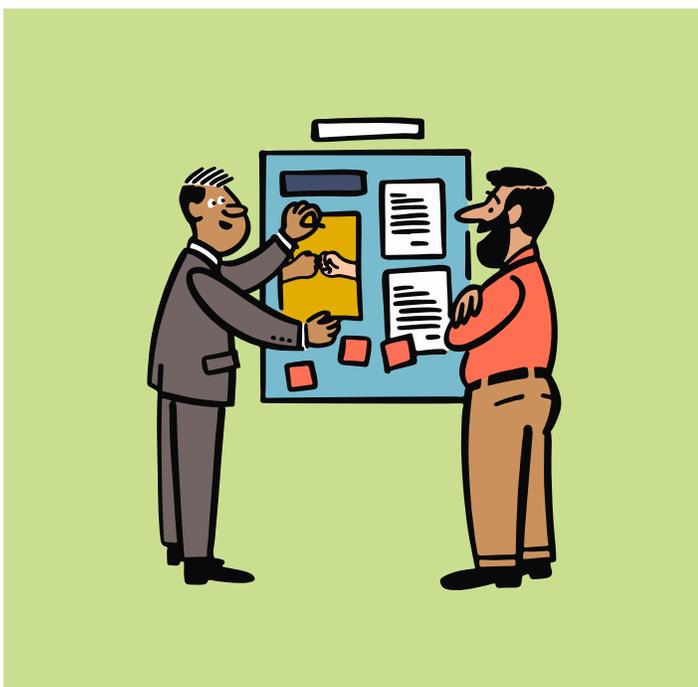

Acts of kindness

February 13 – 19, 2023

Kindness drives connection – this week, do something thoughtful for a buddy or for others in your life. This is a tangible way to show them you care and that you're there for them when they need you.

Examples:

- Take a buddy for coffee
- Volunteer for a charity (e.g., the food bank)
- Bring snacks to work
